## NEW WIRELESS FOR THE NAVY

WAR DEPARTMENT WILL BE PREPARED HERE FOR BIG FLEET'S TELEGRAPHIC CONVENIENCE

Word has been received by local Naval authorities to the effect that as perfect a system of wireless as is possible to obtain will be established by the War Department on this island and that the system will be in operation early next summer, presumably in time for use by the big fleet of Atlantic and Pacific vessels of war of the United States which are likely to congregate here about July next.

Nothing is said in the advice as to the direct purpose of installing an up-to-date system of wireless here, but it is presumed that the mention of the fact that it is to be completed early next summer is an indication that it will be required for use by the battleships coming to the Pacific from the Atlantic and for vessels already in this ocean which will take part in the maneuvers of what will be the new Pacific fleet.

It is not known on what part of the island the apparatus will be installed.
